Polish (native), English B2

Dominik Rudkowski

Information security · Operations administration · Communication

I bring together information security, operations and communication. At Allegro I opened two depots, look after three sites and automated access card issuing (6 min → 1:40 per card). In my own consultancy I write security policies and Python tools. MA in Security in the Digital Economy (UKSW).

EXPERIENCE

Junior Administration Specialist
since 07.2026

Allegro · Operations Administration · E-xperience programme

- **Site openings.** I opened two depots, in Opole and Łódź. I ran them from furniture orders through equipment, water and vending machines to the final details.
- **Automation.** My bot cut the time to issue one access card from 6 minutes to 1:40. 955 cards went through the request sheet in 10 weeks.
- **Open Day One by Allegro.** Co-organised an event for about 1500 people at 16 sites. My part: Toruń and Bydgoszcz, posters, mailing, reels and survey analysis.
- **Training and procedures.** Social media video training for the whole department and a procedure for furnishing new sites depending on the building type.

Security & Digital Communication Consultant
since 01.2025

Self-employed

- I design and implement information security policies for business clients.
- Built a Python email security audit tool (SPF, DKIM, DMARC, MX) with PDF reports and checked 200 Warsaw businesses: 83% do not block spoofing.
- Brand strategies and brand books, including Data Guardian for EXTREE. LLM automations for marketing agencies.

Event Program Coordinator (Cybersecurity)
05.2025 to 12.2025

Academic Partners Foundation

- Co-created programmes for IT and cybersecurity conferences, including The Hack Summit.
- Worked with experts and speakers, supported the agenda and the Call for Papers process.
- Created promotional content for LinkedIn, Facebook and X.

Operations Specialist
12.2024 to 05.2025

CHIC

- Oversaw business continuity of warehouse and sales systems (ERP/POS).
- Analysed incidents and system discrepancies and tightened internal procedures.

Technical Editor, IT security & privacy
02.2019 to 12.2024

Applemobile.pl

- Over 5 years of writing and editing content on IT, privacy and digital security.
- Analysed security incidents and verified hardware specifications.
- Translated technical topics into plain language for end users.

Video creator: about 100k followers on TikTok, 5k on YouTube.

PROJECTS

- **Vigil.** An open-source Swift tool that only reads settings and never changes anything.
- **SharpDisplay.** A native Swift app, no dependencies. Four releases in 10 days.
- **Email audit of 200 Warsaw businesses.** My own tool with a PDF report for each business. 83% of those checked do not block spoofing.
